

TN Veterans Security

System Documentation & User Guide

Features, Verification & Daily Use

Document Date: July 10, 2026

About This Document

This document covers the TN Veterans Security website and admin system: what was built against your specification, and step-by-step instructions for administrators, students, and public site visitors.

Section A: Specification Features

The following sections match your project specification. Each item describes what was built and where to find it in the system.

1. HOMEPAGE

1.1 View Security Services Button Links to Affiliates

Details:

Hero button uses route('affiliated-services'). Navigates to /affiliated-services.

1.2 Homepage Email Uses Business Email

Details:

Email section displays Jayson@tnveteranssecurity.com with mailto link. Fallback when Site Settings email is empty.

1.3 Homepage Text: At TN Veterans

Details:

Branding corrected to 'At TN Veterans Security Services and Training' (not '@ Tn Veterans').

2. ABOUT US PAGE

2.1 About Us Text: At TN Veterans

Details:

About page uses correct 'At TN Veterans Security Services and Training' branding.

3. CALENDAR PAGE

3.1 Calendar Footer Note

Details:

Persistent note at bottom: 'If you need a class that is not currently scheduled, please contact us...'

4. AFFILIATES PAGE

4.1 Veteran Owned Security Companies (4 links)

Details:

Elite Security, Vanguard Security Training, Regiment Security Group, Essential Security Services with correct URLs.

4.2 Non Veteran Owned Security Companies (3 links)

Details:

SafetyTN Security Solutions, JS Security Consulting, Apex with correct URLs.

4.3 Veteran Owned Companies Non Security (3 links)

Details:

Guns and Leather, Shooter's Guns Ammo & Range, South Winds Cattle Company.

4.4 Non Veteran Owned Companies Non Security (3 links)

Details:

Code Blue CPR Services, USLAW Shield, TN Professional Training Institute.

5. TRAINING & CLASSES TABS

5.1 Remove Security Training Classes from Training Tabs

Details:

PublicTrainingServiceQuery excludes security_training and renewals categories. Removed: Renewal Dallas Law, Unarmed/Armed Guard classes, bundles, ASP, Less Than Lethal, etc.

5.2 Add Handle With Care to Training Tabs

Details:

Handle With Care service exists (slug: handle-with-care). Listed in Training menu. NOT under Security Training.

6. SECURITY TRAINING PAGE

6.1 Security Training Hover Menu - 2 Items Only

Details:

Menu contains only Initial Registration and Renewal Registration.

6.2 Hospital/School Registration Message

Details:

Question 2 of 3: 'Active Shooter and BLS are mandatory. Handle With Care is recommended.'

6.3 Remove 3 Simple Steps Section

Details:

Section '3 Simple Steps to Security Training' removed from page.

6.4 Renewal Section Lists 4 Classes

Details:

Renewals page shows: Renewal Dallas Law, Unarmed Guard Renewal, Renewal Enhanced Armed Guard, Armed Guard Renewal.

7. CONTACT US PAGE

7.1 Contact Inquiry Options (All 9)

Details:

Dropdown includes: NRA, Handgun Permit, Enhanced Armed Guard, Red Cross, Active Shooter, Unarmed Guard, Handle With Care, Armed Guard, De escalation.

8. STUDENT PROFILE PAGE

8.1 Security Registration Number Requirement

Details:

Question: 'Do you have or have you ever had a Security Registration Number?' If Yes: Registration Number and Expiration Date required (register, profile, admin edit).

9. DASHBOARD

9.1 Dashboard Customer Count Bug Fixed

Details:

Dashboard uses Student::count() and label 'Total Students'. Links to /admin/students. No orphaned customer count.

9.2 Admin Database Access - All 4 Data Types

Details:

Admin can access: Customer/Student records, Class registrations (bookings), Contact form submissions, Payment confirmations.

9.3 Calendar Email from Business Email

Details:

CalendarInviteService uses SiteSetting business email. ICS calendar invite attached to enrollment email.

10. CLASS COMMUNICATION SYSTEM

10.1 Notify Enrolled Students Tool

Details:

Scheduling screen has 'Notify Enrolled Students' button. Types: canceled, rescheduled, moved, time changed, instructor changed. Delivery: Email, Text, or Both.

10.2 Notification Logging

Details:

ClassNotification logs: timestamp (created_at), message, delivery_method, class_schedule_id, student_ids.

11. ENROLLMENT CONFIRMATION SYSTEM

11.1 Confirmations After Deposit Payment Only

Details:

EnrollmentConfirmationService called only after successful deposit payment.

11.2 Student Email - All Required Fields

Details:

Email includes: class name, date/time, location, instructor, deposit, remaining balance, what to bring, prerequisites.

11.3 Student Text Message Template

Details:

SMS: 'You are enrolled in [Class] on [Date] at [Time] at [Location]. Check your email for details.'

11.4 Admin Enrollment Alert Email

Details:

Includes student name, email, phone, class, deposit amount, payment confirmation ID.

12. PAYMENT & ENROLLMENT LOGIC

12 Payment & Enrollment Logic

Details:

Deposit required before enrollment confirmed. deposit_amount configurable per class. refund_policy field supported.

13. CLASS CAPACITY & WAITLIST

13.1 Class Capacity Management

Details:

max_students field, current_students tracking, prevents over-enrollment, admin override on schedule edit.

13.2 Waitlist System

Details:

Full classes show 'Join Waitlist'. Waitlist entries stored. Admin can notify waitlisted students.

14. CLASS LOCATION MANAGEMENT

14 Class Location Management

Details:

Location dropdown on schedule creation. Location appears in class listing, calendar, confirmation email, confirmation SMS, and dashboard.

15. INSTRUCTOR ASSIGNMENT

15 Instructor Assignment

Details:

Instructor dropdown on schedule creation. Appears in class listing, confirmation email, dashboard, student portal.

16. STUDENT PORTAL

16 Student Portal - All Features

Details:

Students can: view upcoming/past classes, download certificates, update contact info, view payment history, view registration number & expiration, complete online blended modules.

17. ADMIN PORTAL

17 Admin Portal - All Features

Details:

Admin can: view/search students, view class rosters, export rosters (CSV), view payment history, view communication logs, edit/cancel class schedules, add instructors, add locations, edit student profiles.

18. EMAIL & SMS PROVIDER SETUP

18 Email & SMS Provider Setup

Details:

SMTP via .env MAIL_* settings. Twilio SMS via Admin Site Settings. Error logging in services. Domain verification via DNS (production).

19. MOBILE RESPONSIVENESS

19 Mobile Responsiveness

Details:

Tailwind responsive layouts on public site, admin panel, and student portal. Tested breakpoints for phone/tablet.

20. ACCESSIBILITY

20 Accessibility (WCAG)

Details:

Skip-to-content link, aria-labels on social icons, descriptive alt text on images, form labels, keyboard-navigable menus.

21. PERFORMANCE & SECURITY

21 Performance & Security

Details:

HTTPS forced in production (AppServiceProvider). Rate limiting on login (10/min), contact (5/min), booking inquiry. CSRF protection. Contact form captcha spam protection.

22. BLENDED COURSE REQUIREMENTS

22.1 Online Course Delivery

Details:

Admin creates modules with written content, video, images. Reorder supported. Student access via online courses.

22.2 Module Level Quizzes (90% Pass)

Details:

Each module ends with quiz. 90% passing score. Progression locked until pass. Admin configures Q&A.

22.3 No Online Final Exam

Details:

Only module quizzes online. Final evaluation is in-person hands-on.

22.4 Completion Tracking

Details:

Tracks module completion, quiz scores, attempts, timestamps. Admin can reset or override progression.

22.5 Automatic Completion Notifications

Details:

Email + SMS to student and instructor when online portion complete. Includes name, course, timestamp, eligibility.

22.6 In-Person Testing Eligibility

Details:

Student blocked from in-person testing until all modules passed at 90%+.

22.7 In-Person Test Results

Details:

Admin records Pass, Fail, or Needs Remediation.

22.8 No Certificates for Blended Courses

Details:

Blended courses do not issue certificates.

23. TRAVEL BASED CLASS REQUIREMENTS

23.1 Travel Classes - Additional Fees

Details:

Distance, lodging, travel time fees configurable per class. Admin override supported.

23.2 Travel Classes - Minimum Student Requirement

Details:

minimum_students field. Dashboard alerts when below minimum. Admin can cancel, reschedule, notify.

23.3 Travel Class Scheduling Visibility

Details:

Travel classes appear in calendar, class listings, student portal, admin portal.

23.4 Travel Notes in Communications

Details:

Travel notes, location details, lodging instructions in confirmation email, reminder email (ClassReminderMail daily), student portal.

Section B: Administrator User Guidelines

Admin login URL: /admin/login

Business email: Jayson@tnveteranssecurity.com

Use Chrome or Edge on desktop for best experience. Mobile admin panel is responsive.

B.1 First-Time Setup

Initial Site Settings (/admin/settings)

1. Set business email to Jayson@tnveteranssecurity.com
2. Enter phone number, address, and social media links
3. Configure Twilio Account SID, Auth Token, and From Number for SMS
4. Save QuickBooks credentials if using online payments
5. Save settings and send a test contact form to verify email delivery

Add Instructors and Locations

1. Go to /admin/instructors > Add Instructor (name, email, phone, bio)
2. Go to /admin/locations > Add Location (name, address, city, state, zip)
3. These appear as dropdowns when scheduling classes

B.2 Creating and Managing Training Classes

Add a New Class (/admin/classes > Add New Class)

1. Enter class title, description, price, and deposit amount
2. Set refund policy text (shown to students at checkout)
3. Choose categories carefully: do NOT add security_training to general classes like Handle With Care
4. For travel classes: enable travel-based, set minimum students, distance/lodging fees, travel notes
5. For blended courses: enable blended course flag, then add modules under Course Modules
6. Upload class image and set prerequisites / what to bring fields (appear in confirmation email)

Schedule a Class (/admin/class-schedules > Create)

1. Select the class from dropdown
2. Set date, start time, end time
3. Select instructor and location from dropdowns
4. Set max_students (capacity). System tracks remaining seats automatically
5. Status: scheduled (open), full (waitlist only), cancelled, or completed
6. Save and verify class appears on public calendar and student available-classes page

Edit or Cancel a Class Schedule

1. Open schedule from /admin/class-schedules list
2. Click Edit to change date, time, instructor, location, or capacity
3. Change status to 'cancelled' to cancel without deleting
4. Use 'Notify Enrolled Students' BEFORE or AFTER changes to inform students

B.3 Student and Enrollment Management

View and Search Students (/admin/students)

1. Use search box to find by name, email, phone, or registration number
2. Click student name to view profile, bookings, and registration details
3. Click Edit to update contact info or security registration number/expiration

View Class Rosters and Export

1. Open any class schedule detail page (/admin/class-schedules/{id})
2. Enrolled students list shows deposit status and contact info
3. Click 'Export roster (CSV)' to download spreadsheet for attendance

Process Bookings and Payments

1. View all bookings at /admin/bookings with status and payment filters
2. View payment confirmations at /admin/payments
3. Enrollment is confirmed only after deposit_paid status

Handle Contact Form Submissions

1. Review at /admin/contact-submissions
2. Open each submission to read message and inquiry type
3. Mark status as read or responded after follow-up

B.4 Class Communications

Notify Enrolled Students (Class Schedule Detail Page)

1. Scroll to 'Notify Enrolled Students' section
2. Select notification type: Class Canceled, Rescheduled, Moved, Time Changed, or Instructor Changed
3. Select delivery: Email, Text (SMS), or Both
4. Write clear message with new date/time/location if applicable
5. Click Send Notification. System logs timestamp, message, method, class ID, and student IDs
6. Verify delivery in /admin/communication-logs

Notify Waitlisted Students

1. When a seat opens or new schedule added, use 'Notify Waitlist' on schedule detail
2. Select Email, SMS, or Both and write availability message
3. Waitlisted students marked as 'notified' after successful delivery

Automatic Notifications (No Admin Action Required)

1. Enrollment confirmation email + SMS sent automatically after deposit payment
2. Blended course completion email + SMS sent when student finishes all online modules
3. Class reminder emails sent daily via scheduled command (travel notes included)

B.5 Blended Course Administration

Create Blended Course Modules

1. Open class > Course Modules (/admin/classes/{id}/course-modules)
2. Add module with title, written content, video URL, and images
3. Add quiz questions with multiple choice answers and correct answer marked
4. Drag to reorder modules. Students must pass each quiz at 90% before advancing

Monitor Student Progress

1. Go to Blended Progress (/admin/classes/{id}/blended-progress)
2. View each student's module completion, quiz scores, and attempt counts
3. Use Override to mark module complete manually if needed
4. Use Reset to allow student to retake a module

Record In-Person Test Results

1. After student completes all online modules, they become eligible for in-person testing
2. On blended progress page, select student and record: Pass, Fail, or Needs Remediation
3. Blended courses do NOT issue certificates

B.6 Travel Class Administration

Configure Travel-Based Classes

1. When creating/editing class, enable 'Travel Based' option
2. Set minimum_students required for class to proceed
3. Configure distance fee, lodging fee, travel time fee as needed
4. Add travel notes and lodging instructions (appear in emails and student portal)

Monitor Travel Class Enrollment

1. Dashboard shows alerts when travel class enrollment is below minimum
2. Admin can cancel, reschedule, or notify enrolled students from schedule page
3. Travel classes appear on calendar, listings, student portal, and admin portal

Section C: Student User Guidelines

Student login: </student/login> | Register: </student/register>

C.1 Account Registration

Create Your Account

1. Go to </student/register>
2. Enter full name, email, phone number, and password
3. Answer: 'Do you have or have you ever had a Security Registration Number?'
4. If Yes: enter Registration Number and Expiration Date (required fields)
5. Submit to create account. You can update info later in My Profile

C.2 Finding and Enrolling in a Class

Browse Available Classes

1. Visit </training-services> to browse non-security training classes
2. Visit </security-training> for security guard initial or renewal registration guidance
3. Visit </class-calendar> to see scheduled dates
4. Click a class to view details, prerequisites, and available schedules

Complete Enrollment (Deposit Required)

1. Select a class schedule (date, time, location, instructor shown)
2. If class is full, click 'Join Waitlist' instead
3. Proceed to checkout and pay the required deposit
4. Enrollment is NOT confirmed until deposit payment succeeds
5. After payment: check email for full details and phone for confirmation text
6. Email includes: class, date/time, location, instructor, deposit, balance, what to bring, prerequisites

C.3 Student Portal Features

Dashboard (</student/dashboard>)

1. View upcoming classes with date, time, location, and instructor
2. View recent past classes
3. Quick links to bookings, profile, and online courses

My Bookings (</student/bookings>)

1. See all enrollments with payment status (pending, deposit paid, fully paid)
2. Click booking for full details including travel notes if applicable
3. Complete remaining balance payment if deposit only was paid

My Profile (/student/profile)

1. Update name, email, phone, and address
2. Update security registration number and expiration date
3. Upload profile picture

Payment History (/student/payment-history)

1. View all payments with amounts, dates, and transaction IDs

Online Courses (/student/online-courses)

1. Access blended course modules after enrollment and deposit payment
2. Complete each module's content then take the quiz
3. Must score 90% or higher to advance to next module
4. When all modules complete, you receive email and text confirming eligibility for in-person testing
5. Final testing is hands-on in person. No online final exam. No certificate for blended courses

Certificates (/student/certificates)

1. Download certificates for completed non-blended courses (if applicable)
2. Blended courses do not issue certificates

Section D: Public Website Guide

Homepage (/)

1. Overview of TN Veterans Security Services and Training
2. 'View Security Services' button links to Affiliates page
3. Contact email: Jayson@tnveteranssecurity.com
4. Branding uses 'At TN Veterans' (not '@ Tn Veterans')

About Us (/about)

1. Mission, values, and instructor information
2. Correct 'At TN Veterans Security Services and Training' branding

Class Calendar (/class-calendar)

1. Monthly view of scheduled classes
2. Footer note: contact us to arrange training at your preferred location if class not listed

Affiliates (/affiliated-services)

1. Four sections: Veteran Owned Security, Non Veteran Owned Security,
2. Veteran Owned Non Security, Non Veteran Owned Non Security
3. 13 partner companies with external links

Training Services (/training-services)

1. Browse general training classes by category
2. Security guard classes and renewals are NOT listed here (by design)
3. Handle With Care appears here and in Training menu

All Services (/all-services)

1. Complete service listing excluding security training and renewals

Security Training (/security-training)

1. 3-question pre-qualification wizard
2. Hospital/School answer shows mandatory Active Shooter and BLS, recommended Handle With Care
3. Links to Initial Registration or Renewal Registration

Initial Registration (/intial-security)

1. Security guard initial registration classes and information

Renewals (/renewals)

1. Four renewal classes: Renewal Dallas Law, Unarmed Guard Renewal,
2. Renewal Enhanced Armed Guard, Armed Guard Renewal

Contact Us (/contact-us)

1. Contact form with 9 inquiry type options
2. Math captcha spam protection
3. Submissions stored for admin review

Section E: Feature Checklist

Use this list when reviewing the site. Check off each item as you confirm it works.

- ☐ 1.1 View Security Services button goes to /affiliated-services
- ☐ 1.2 Homepage email shows Jayson@tnveteranssecurity.com
- ☐ 1.3 Homepage says 'At TN Veterans' not '@ Tn Veterans'
- ☐ 2.1 About page says 'At TN Veterans'
- ☐ 3.1 Calendar footer note always visible
- ☐ 4 Affiliates page: 4 sections, 13 companies, correct URLs and order
- ☐ 5.1 Security/renewal classes NOT on /training-services or /all-services
- ☐ 5.2 Handle With Care visible on training tabs and menu
- ☐ 6.1 Security Training menu has only Initial + Renewal Registration
- ☐ 6.2 Hospital/School shows Active Shooter and BLS mandatory message
- ☐ 6.3 '3 Simple Steps' section removed from security training page
- ☐ 6.4 Renewals page shows exactly 4 renewal classes
- ☐ 7.1 Contact form has all 9 inquiry options
- ☐ 8.1 Registration number question with conditional required fields
- ☐ 9.1 Admin dashboard shows Total Students (not broken customer count)
- ☐ 9.2 Admin can access students, bookings, contacts, payments
- ☐ 9.3 Calendar invite uses business email
- ☐ 10.1 Notify Enrolled Students: 5 types, Email/SMS/Both
- ☐ 10.2 Communication logs record all notification details
- ☐ 11.1 Enrollment confirmed only after deposit payment
- ☐ 11.2 Student email has all required enrollment fields
- ☐ 11.3 Student SMS has class, date, time, location
- ☐ 11.4 Admin receives enrollment alert email
- ☐ 12 Deposit required, configurable per class, refund policy works
- ☐ 13.1 Capacity enforced, over-enrollment prevented, admin override works
- ☐ 13.2 Waitlist join, storage, and admin notify works
- ☐ 14 Location dropdown on schedules, visible everywhere required
- ☐ 15 Instructor dropdown on schedules, visible everywhere required
- ☐ 16 Student portal: upcoming/past classes, profile, payments, certificates, online
- ☐ 17 Admin portal: search, rosters, export, logs, edit/cancel, instructors, locations
- ☐ 18 SMTP email and Twilio SMS configurable in admin settings
- ☐ 19 All pages responsive on iPhone, Android, tablet
- ☐ 20 Skip link, alt text, aria labels, keyboard navigation
- ☐ 21 HTTPS in production, rate limiting, captcha spam protection
- ☐ 22.1-22.8 Blended courses: modules, 90% quizzes, tracking, notifications, no certs
- ☐ 23.1-23.4 Travel classes: fees, minimum students, visibility, travel notes in comms
